ALWAYS AN IDEA AHEAD

What future lies ahead of us?
Some might say: let's wait and see. Not us.
We say: let's create it. We embrace evolution.
We love progress. We drive change for the better.

125 years ago, we transformed an entire continent by introducing the light bulb from America. Connected to our grid, it spread electricity across Europe.

In 1958, we changed laundry forever. What used to be a chore done by hand became effortlessly automated in a machine.

Recently, we reconfigured the face of home kitchens with the first household oven that enables vacuum cooking.

Change is part of our DNA. And yours.

The way you eat will change, the way you dress will change, the way you are will change.

That's why we make sure our appliances not only more than meet your needs today, but also feature future-facing technology to fit your needs tomorrow.

We're not interested in what is latest. We're focused on what is next.

We're AEG. And we're always an idea ahead.

IT'S THE DRIVE TO BE FIRST THAT KEEPS US AHEAD

10 AEG Firsts

1910 First electric cooker

1912 First electrically powered refrigerator

1950 First washing machine

1952 First built-in refrigerator

1959 First combi fridge

1964 First clothes dryer

1987 First induction cooking hob

1997 First clothes dryer with a heat pump

2012 First most energy efficient heat pump dryers range

2013 First full-size SousVide oven

Whether you're cooking an old favourite or exploring new territory, what matters most is achieving precisely the tastes and textures you want. Which is why the new AEG range of built-in appliances are all designed to help you create exactly the flavours you're aiming for. Our advanced technology and intuitive features give you the control and flexibility to serve up perfect meals, every time.

Why AEG?

With our award winning Germanic design and build quality, AEG understand that the kitchen is increasingly becoming the heart of the home. Your kitchen appliances are essential tools that will be used for many years every day and so it is worth choosing a brand that will deliver you exceptional results in performance as well as looking stunning with its seamless design: hence perfect alignment in stainless steel and black glass is offered across the whole range.

FRIDGES AND FREEZERS

The ProFresh technology in our fridges ensures that your seasonal produce is kept in optimum condition for longer. Our extra tall built-in fridge freezers offer you maximum storage space meaning fewer trips to the shops and our stunning designer PerfektFit™ fridge freezer with wine cooler makes a real statement, perfect for entertaining and will align seamlessly within your kitchen units.

OVENS

Our beautiful ovens feature an impressive XXL capacity. This means that we can offer you 5 shelves of completely even cooking and thanks to our ThermiC° hot air system, you can cook savoury and sweet at the same time with no transfer of flavour. For that all important Christmas feast, we tried and tested our ovens and you can comfortably cook a meal for 12 with all the trimmings!

Our impressive oven range offers you the latest options in innovation including our new SousVide oven, multifunction steam, pyrolytic and AutoSense (the clever oven that thinks for itself!)

HOBS

AEG offer you stunning designs across all our hobs, with designer gas hobs, sleek ceramic and stunning induction hobs. Have you ever considered induction, the fastest growing hob technology, offering the ultimate in controllability and energy efficiency?

Induction is so easy to keep clean, plus we also offer you exciting cooking solutions with bridging functions, which facilitate sophisticated cooking with grill plates or fish kettles.

LAUNDRY

Whether in your kitchen or your utility room, our AEG laundry range offers you robust, well-built machines designed to treat your garments with the utmost care, with special programmes that offer the gentlest cleaning for your softest cashmeres and silk scarves.

Some of our laundry products have been awarded the Blue Woolmark award, plus our range uses an incredible 50% less energy than a standard A rated dryer.

HOODS

Our hoods complement our ovens and hobs beautifully. Our stunning designer hoods make a real statement as well as offering you the most efficient extraction solutions to keep your open plan living as fresh as possible.

DISHWASHERS

The unsung heroes of many kitchens, our AEG dishwashers offer you a greater internal capacity (10 litres more than the average) with outstanding cleaning performance thanks to our extra satellite spray arm, giving you sparkling results. For open plan living, our dishwashers have also been awarded the Quietmark award.

COOLING

In today's hectic world, who has time to go shopping for fresh food every day? But you can still eat fresh every day thanks to our ProFresh Plus range with TwinTech™ technology, to ensure your food remains fresher for longer – so your dishes look and taste better, every time.

AEG Fridges and Freezers?

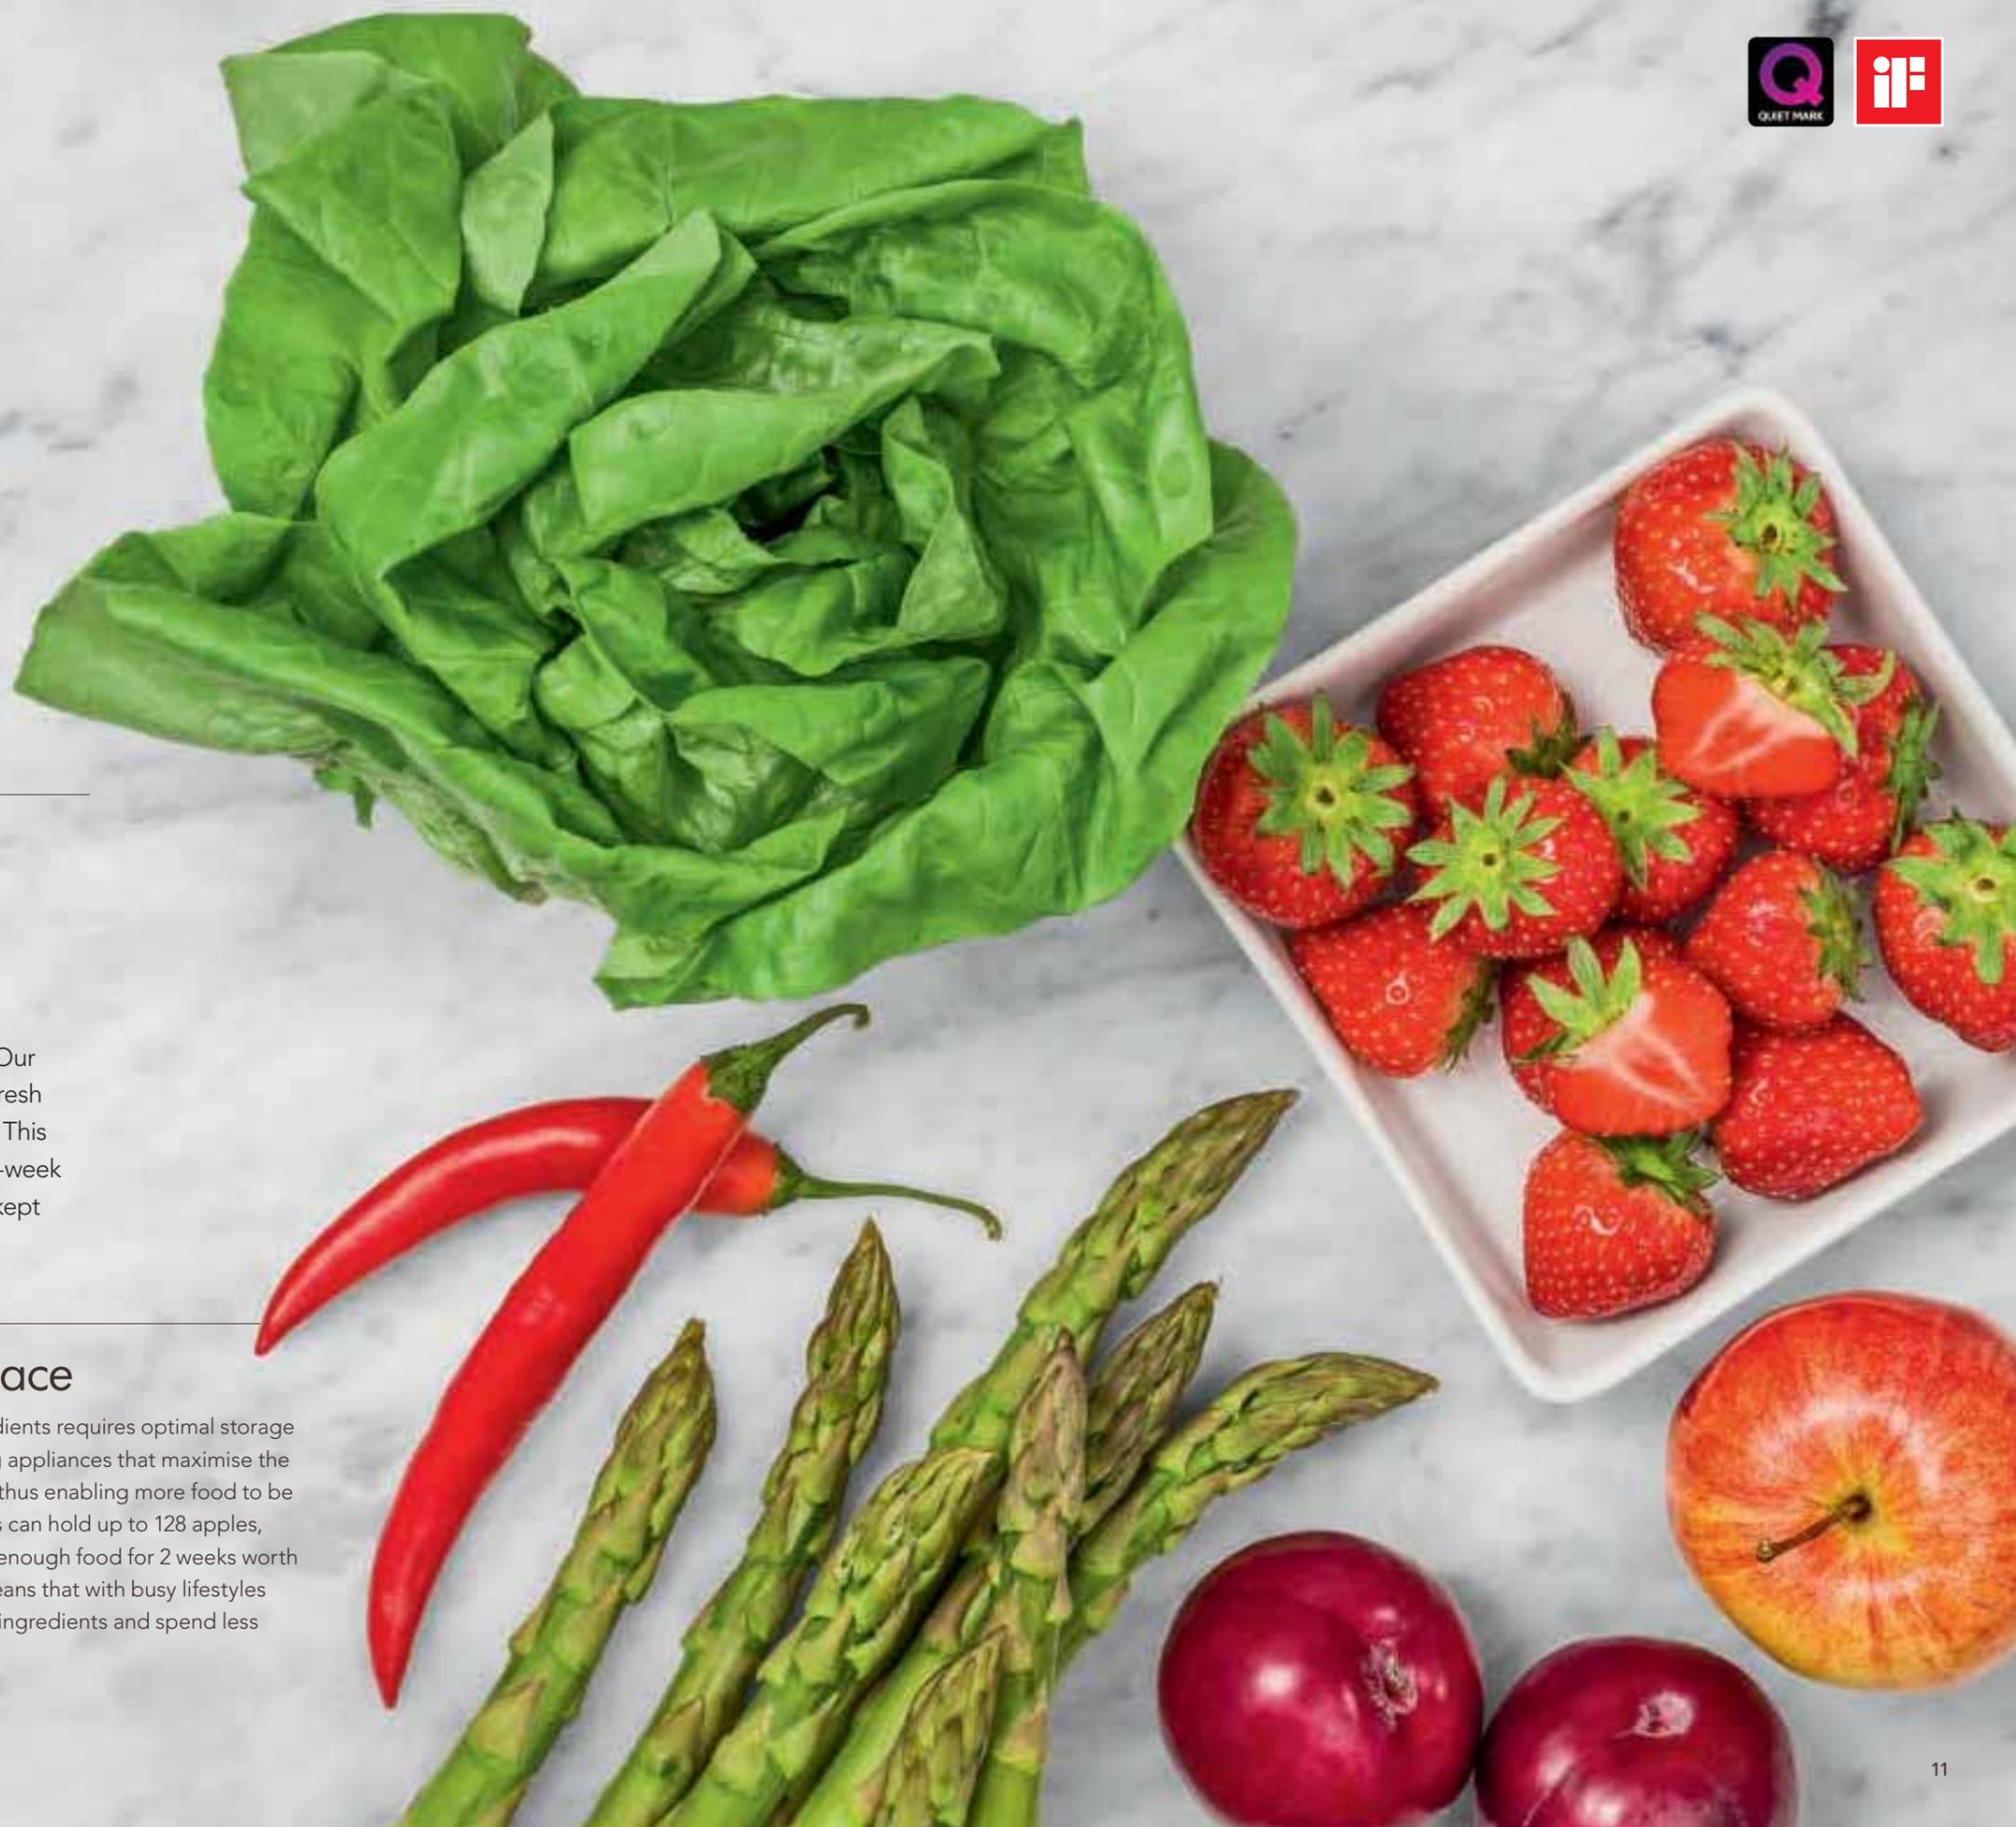

Whether you're buying a fridge for the first time or upgrading your existing fridge-freezer, AEG has the perfect appliance for your home.

Keep food as fresh and as nutritious as the day you bought it

Great tasting meals start with fresh, nutritious ingredients. Our range of fridge freezers are designed with the latest LongFresh cooling temperature zones to keep food fresher for longer. This not only ensures that your food is full of flavour for that mid-week meal, but also means that you waste less food as it can be kept for longer.

All about space

Cooking with fresh ingredients requires optimal storage space. We design cooling appliances that maximise the internal storage capacity thus enabling more food to be stored. Our salad drawers can hold up to 128 apples, and our fridges can hold enough food for 2 weeks worth of evening meals. This means that with busy lifestyles you can store more fresh ingredients and spend less time shopping.

COOLING

SOFTCLOSE DOOR

Selected models now feature SoftClose door hinges that automatically close from an angle of 23-30 degrees - providing an elegant solution to slamming doors.

MAXILOAD

Store more fresh and frozen food in our appliances due to MaxiLoad technology. We use advanced compressor and insulation technology to maximise internal storage space.

PROFRESH

Food stays fresher for longer with our ProFresh technology, ensuring that the fridge temperature is cold, stable and with the correct level of humidity.

LOW FROST

Our advanced freezing technology in selected models means that you only need to defrost the freezer every 2 years, saving yourself a yearly chore.

LONGFRESH STORAGE

Special drawers in selected models can be set individually to create conditions ideal for different food types. Food will stay fresh, preserving the vitamins and nutritional value of the food for up to three times longer than in a conventional fridge.

COOLMATIC

Quickly chill large amounts of fresh food, such as the weekly shop, at the optimum storage temperature.

FROSTMATIC

Frostmatic - ideal for freezing fresh food quickly, preserving flavour, nutritional value and colour.

NO FROST

The freezer compartment automatically defrosts itself, so there is no frost build up of ice.

ENERGY EFFICIENCY

Our high performance models keep food fresher for longer with the smallest possible amount of energy, with models available in A+, A++ or A+++ energy rating.

DYNAMIC AIR

Incorporates a powerful fan which automatically activates to ensure that fridge temperatures are maintained at the desired level.

MULTI AIRFLOW

Ensures food stays fresher for longer as temperatures and humidity levels are extremely stable.

CLEANAIR CONTROL

Uses a charcoal filter to purify the air and reduce odours. So flavours can't be transferred between wrapped and unwrapped foods.

FRESH BOX

Selected models within the range include a dedicated pull-out drawer providing the perfect storage environment for fresh meat and fish.

SOFT RISE LED LIGHTING

LED lighting inside the fridge with 'rise on' effect for crisp contemporary illumination.

LCD

Advanced LCD display with touch controls allows you to set features and temperatures precisely.

TEMPERATURE ALARM

If the temperature rises too high a visible and audible alarm alerts you.

4 STAR FREEZING

You can safely freeze fresh food and store frozen food safely for up to one year.

FROST FREE

Never defrost your freezer again. Frost free freezers also offer efficient and effective freezing with quicker, more even freezing for better food preservation.

MINUTE MINDER

This function can be used to set an acoustic alarm after a desired time period i.e. as a reminder to remove bottles left to chill.

QUIET MARK

Some of our cooling range feature the Quiet Mark accreditation.

Find your perfekt combination.

The AEG built-in cooling range has a variety of different sizes to suit every kitchen design. You can choose to pair a fridge and freezer within each of four niche sizes, from 820mm up to 1780mm. Selected sizes feature LongFresh drawers and NoFrost freezers too.

Fresher for longer

Cooling is just the beginning, for food to stay at the peak of freshness, conditions must be precisely right - and what's perfect for one food is not perfect for another. Our solution, based on years of research is LongFresh. LongFresh storage drawers can be set individually to create conditions ideal for different food. Meat, cheese and fish for example are best kept at 0° with low humidity, whilst salad and vegetables are best kept in high humidity. The result? Food can stay fresh for up to three times longer than in a conventional fridge.

Fine wines call for perfekt storage conditions

Top quality wine is a precious investment that deserves to be treated with care. Our wine cellars are designed to provide constant, optimum conditions for as long as it takes for your wine to reach its peak of perfection, be it your red, white or rose wine.

Built-In Cooling Range

Wine cooling

SWD81800G1

In-column large capacity Stainless Steel Wine Cooler.

SWS74500G0

45cm compact Wine Cellar.

Fridge freezers

SCT81900S0

Extra tall ProFresh Frost Free fridge freezer with A++ energy efficiency.

SCT71900S0

Extra tall ProFresh Frost Free fridge freezer.

SCT81800S0

Highly energy efficient A++ energy rated 50:50 Frost Free fridge freezer.

SCN71800S1

50:50 split Frost Free fridge freezer.

SCT71800S1

70:30 split Frost Free fridge freezer.

SCS71801F1

70:30 split Low Frost fridge freezer.

SCS51800F1

70:30 split Low Frost fridge freezer.

SCS51810S1

50:50 split Low Frost fridge freezer.

Fridges

SKZ81800C0

Large capacity fridge with LongFresh storage.

SKS61840S1

Large capacity fridge with 4-star freezer compartment.

SKD71800C0

Large capacity larder fridge.

SKS71200C0

1225mm larder fridge.

SKS58840S2

880mm fridge with 4-star freezer compartment.

SKS58800S2

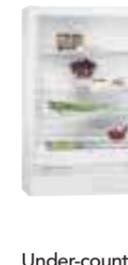

880mm larder fridge.

SKS58240F0

Under-counter fridge with a 4-star freezer compartment.

SKS58200F0

Under-counter larder fridge.

Freezers

AGN71800C0

Large capacity Frost Free freezer.

AGN71200C1

1225mm Frost Free freezer.

AGS58800S0

880mm freezer.

AGN58210F0

Frost Free under-counter freezer.

AGS58200F0

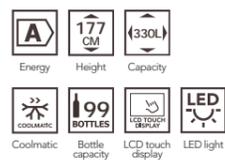

Under-counter freezer.

Cooling / Wine

SWD81800G1

In-column large capacity stainless steel wine cooler with dual temperature regulation for red and white wines.

LCD touch controls, combined with an Air circulation fan system, ensures optimal wine storage for different types of wine with the possibility to personalise the split between each temperature zone.

Electronic controls including Door Open Alarm which sounds if the door is inadvertently left open.

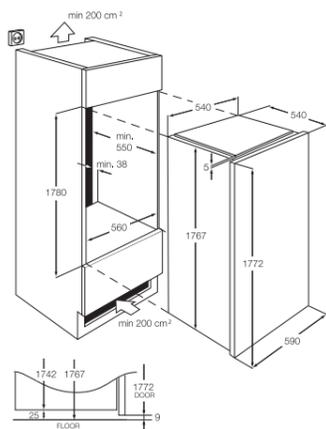

Coolmatic function to rapidly chill several bottles of wine.

Internal LED lighting illuminates the wine cellar but does not generate heat when in operation.

Humidity levels are maintained to prevent corks from drying out.

6 full width stylish wooden shelves for stable and correct bottle storage of up to 99 bottles (75cl).

Right hinged door opening.

Dimensions (HxWxD) in mm
1780 x 560 x 550

Cooling / Wine

SWS74500G0

45cm compact wine cellar.

Mix and match with the full range of compact appliances to achieve a stylish feature within your kitchen.

The single temperature zone, with a range of 5° - 20°, provides the perfect environment for your wine.

Stores up to 24 bottles (75cl).

Internal LED lighting illuminates the wine cellar but does not generate heat when in operation.

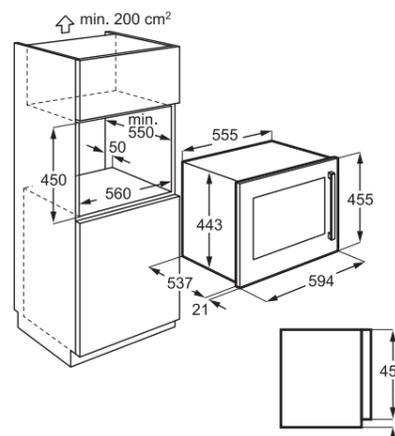

Easy access to bottles via the telescopic runners.

UV protected glass door to protect wine from light damage.

Internal fan ensures a stable, constant temperature.

Telescopic shelving can be removed to accommodate larger sized bottles.

Left hinged only.

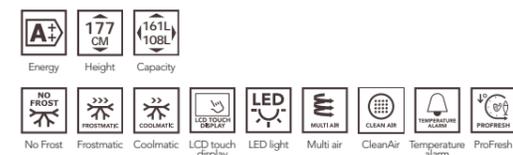

Dimensions (HxWxD) in mm
450 x 560 x 550

Cooling / Frost Free Fridge Freezers

SCT81800S0 - Never defrost again!

Highly energy efficient A++ energy rated 50:50 Frost Free fridge freezer with electronic touch control electronics and MultiAirflow cooling.

Our Frost Free freezer means you never have to defrost your freezer again, whilst your food is easily identified saving you a chore.

LCD touch controls ensure precise temperature and function setting, including useful features such as Frostmatic, Coolmatic, Child Lock, Door Open Alarm and High Temperature Alarm.

Our ProFresh technology means that our Frost Free fridge freezers have two cooling systems, one for the fridge and one for the freezer. This means that the temperature is more accurately controlled in either section preventing your food from deteriorating through over cooling of air from the freezer.

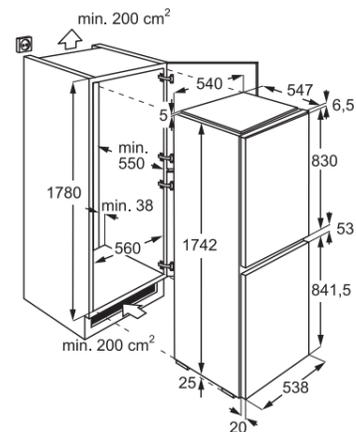

Multi-Airflow cooling gives extremely stable and even temperature and humidity levels, combined with fast temperature recovery and chilling of fresh food to ensure food stays fresher for longer, meaning that you waste less.

Soft Rise LED lighting gives a premium and modern feel to the fridge.

A++ energy rating means that this model is highly energy efficient, using 25% less energy than a standard A+ rated model.

Our CleanAir control system filters the air and reduces odours.

Maximum freezer storage space with the 4 transparent freezer drawers ensuring that your frozen food is easy to identify and select.

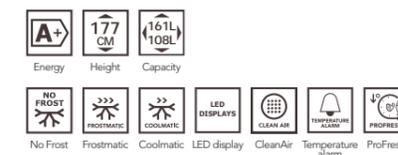

Sliding door fixing (HxWxD)
in mm 1780 x 560 x 550

Cooling / Frost Free Fridge Freezers

SCN71800S1 - Never defrost again!

SKD71800C0

Large capacity in-column larder fridge with A+ energy, electronic touch controls and Dynamic Air cooling.

No risk of slamming doors with our elegant SoftClose door hinging.

Dynamic Air Cooling means that a powerful fan automatically activates to ensure that fridge temperature is maintained at the desired level and food is cooled quickly, preserving food quality.

LCD touch controls ensure precise temperature and function setting, including useful features such as Coolmatic, Holiday Function, Child Lock and Minute Minder.

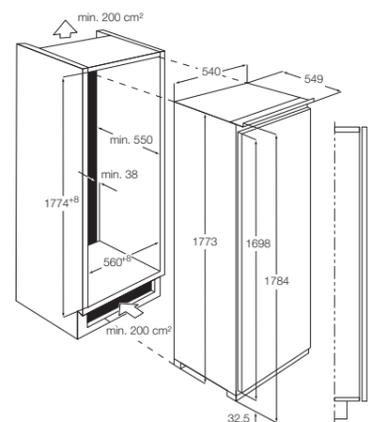

A+ energy rating means that this model is highly energy efficient. Minimising impact on the environment and saving you money.

An extra large, telescopic salad drawer with divider provides a large amount of space for the weekly shop of fresh vegetables and salad.

Soft Rise LED lighting gives a premium and modern feel to the fridge. Our LED's are long lasting, consume less energy and do not give off heat, which may affect food storage.

4 full width glass shelves with metal-look trim, and 2 half depth shelves which can be used as a single shelf or as 2 slim depth shelves for the storage of tall items.

Why AEG Freestanding Fridge Freezers?

With our award winning Germanic design and build quality, AEG understand that the kitchen is increasingly becoming the heart of the home. Your cooling appliances are essential tools that will be used for many years every day so it is worth choosing a brand that will deliver you exceptional results in performance, as well as looking stunning with its seamless design.

Perfekt in form

The AEG range of fridge freezers has been designed to harmonise with the other AEG Neue Kollektion models in your kitchen. With arched doors, aligned to the latest design trends, anti-fingerprint stainless steel, enhanced with an interior design featuring metal profiles on glass shelves and door balconies, these models will add a design led feel to any kitchen.

Perfekt in funktion

The new AEG fridge freezers feature the latest in cooling energy technology, ranging from A+ to A++ energy rated. This minimises the impact on the environment and saves you money without compromising cooling quality.

PerfektFit™

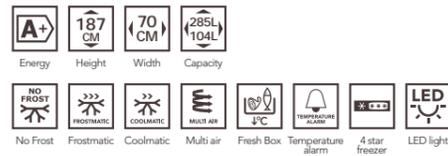

To make the very most of the space you have, we've designed PerfektFit™ - the ultimate cooling solution for your kitchen. With a choice of two models, combining fridge and freezer functions to exactly suit your needs, as well as a dedicated wine cellar to provide optimum conditions for storing and serving wines. Whatever your PerfektFit™ combination, it will integrate perfectly within the standard depth of your kitchen cabinetry.

Cooling / Combi-bottom Fridge Freezers

S74011CMX2

Large Capacity A+ energy rated Frost Free fridge freezer.

The impressive dimensions and stylish look of this model means that it is a credible alternative to an American-style fridge freezer, especially for those with restricted access or smaller kitchens.

In-door electronic controls provide precise temperature and function settings, including useful features such as Frostmatic, Coolmatic, Shopping function and High Temperature Alarm.

Multi Airflow cooling gives extremely stable and even temperature and humidity levels, combined with fast temperature recover and chilling of fresh food. Ensuring that food stays fresher for longer.

Our Fresh Box provides a dedicated area for longer and better storage of fresh meat and fish.

The internal LED lighting ensures easy visibility and a modern feel to the fridge.

With our Frost Free freezer you never have to defrost your freezer again, saving you a chore.

A+ energy rating means that this model is highly energy efficient, minimising the impact on the environment.

Ovens

The heart of every kitchen is the oven, where heat works its magic, turning raw ingredients into wonderful food and aromas.

As you challenge yourself and hone your cooking skills, your oven must be infinitely adaptable, capable of exceedingly delicate adjustment, yet also be amazingly durable.

The starting point for our design brief is the use of very high grade materials. You won't always see them, but you'll know they're there in the feeling of strength and balance, and the quiet, unruffled way an AEG oven does its work, year after year. It's that high quality frame that enables our ovens to introduce outstanding technical features.

Visually, our built-in range of ovens from our Neue Kollektion have a sophisticated control panel within vertical lines, held by flowing horizontal lines: like an 'H' on its side. Whilst the interface is information-rich and extremely powerful in what it enables the user to do, its design is pure and simple: so using it never feels complicated. For example, the number of different materials is kept to a minimal two: glass and steel.

Design Awards

Gold Award Winner,
Design Awards 2011

The Gold Award is the highest classification for products in the Product Innovation Award categories at the Design Awards 2011, organised by Designer magazine.

Products achieving the Gold standard have been judged to be real innovators within their particular product category, delivering something genuinely new to the market.

Side Opening Ovens

BP871510KM / BP861510KM

Side opening Pyroluxe® Plus ovens.

COOKING

The AEG MaxiKlasse™ oven has extra large capacity - our largest standard single oven, with up to 5 shelf positions. With greater room and our ThermiC° hot air cooking system more hot air is circulated to every corner of the oven at a precise temperature for perfectly even cooking, wherever the food is placed.

EXTRA LARGE CAPACITY

Our large XXL MaxiKlasse™ oven has more usable space which allows you to cook on all 5 levels simultaneously, which means you can bake 150 cookies at the same time.

PYROLUXE® PLUS – SELF-CLEANING

A total self-cleaning function, that heats up to 500°C and turns food residue to ash.

CORE TEMPERATURE SENSOR

Measures the precise cooking temperature inside the food, for perfect results every time.

ANTI FINGERPRINT STAINLESS STEEL

Eliminates unsightly fingerprints from the appliance, for an effortless clean look.

THERMIC° HOT AIR

Our exclusive ThermiC° hot air cooking technology ensures precise heat circulation and exact temperature control. The result is perfect cooking in every corner. On any shelf. In any position.

DEFROST

Defrost your frozen food gently in half the usual time. Air is gently circulated around the oven cavity quickly, defrosting your food hygienically.

CONVENTIONAL

Top and bottom elements heat the oven providing traditional cooking on one shelf position, which is ideal for baking breads or fruitcakes.

TURBO GRILLING

This clever function gives an authentic spit roast effect without the mess. Heat from the top elements is circulated by the fan, sealing and crisping the food.

PIZZA SETTING

Ensures bases are properly cooked. Designed to ensure pastry bases, quiches and pizzas are cooked to your taste.

BOTTOM HEAT

Oven is heated by the bottom element only. Foods are gently reheated, ideal for pies and pastries as it keeps the pastry crisp. This function is also ideal for plate warming.

TOP HEAT

Oven is heated by the top element only. Ideal for the shepherd's pie, or lasagne that just require gentle browning.

GRILL

Fully controllable powerful grill, ideal for family sized portions of food.

ECONOMY GRILLING

Fully controllable economy grill, suitable for smaller quantities.

SLOW COOK

Come home to a slow cooked roast or casserole. Two slow cook options, dependent on quantity of food being cooked. Food is initially sealed and then cooked at the low temperature to tenderise the ingredients.

KEEP WARM

This option maintains a temperature of 80°C, perfect for keeping food warm until ready to serve, without drying the food.

ROASTING

Economical setting for roasting large joints or poultry. Simply select the appropriate cooking time depending on the weight of the food and the oven automatically switches off once the cooking is complete.

FAST HEAT UP

No waiting for your oven to reach full heat, eliminating the need for preheating, great for those quick convenience meals.

MOIST FAN BAKING

Allows you to create your light and fluffy fatless sponges and baked soufflés to perfection. Moisture is retained within the oven thus achieving light fluffy results whilst using the oven in a more economical way.

FROZEN FOODS

Cook straight from frozen. All-round intense heat ensures your frozen food is correctly defrosted and cooked at the same time.

TRUE FAN

Our true fan cooking system gently circulates hot air through the oven cavity, allowing you to cook sweet and savoury at the same time with no transfer of flavour and taste. As the oven heats up faster, lower temperatures and shorter cooking times are used to achieve those delicious results.

MAXI TRAY

The largest fitted oven tray available. In real terms, that means 20% more cookies from a single bake. Naturally, each one will be perfectly golden and crunchy.

MAXISIGHT® FLOOD LIGHT

A larger viewing window and inclined floodlight, for a clearer view of your cooking progress.

REGENERATE

Steam is used to gently heat food up and keep it warm.

DOUGH PROVING

Creates the perfect environment to assist bread baking by proving your yeast mixture correctly.

BREAD BAKING

Optimum temperature and environment for baking yeast mixtures. Using radiant heat and steam to bake a variety of loaves to your taste.

PRESERVING AND DRYING

Suitable for drying foods like herbs, mushrooms and chillies.

DIAMOND ENAMEL LINERS

Enamel interior, durable and easy to clean.

PROSIGHT TOUCH CONTROL

Provides instant feedback, easy to use and looks sleek in the kitchen.

AUTOSENSE

Advises you of the perfect temperature and duration to cook your food. All food types may be found in the 5 food categories.

ISO FRONT DOOR

The door has a special heat reflective coating so the outside of the door is cooler to the touch.

PERFEKTENTRY

PerfektEntry for total flexibility. OptiFlex™ shelf runners which are shaped to make it easier to select and adjust the cooking level you require.

NAVISIGHT™

LCD and touch-dial navigation controls provide quick access to pre-programmed recipes and oven functions.

Ovens / MaxiKlasse™ Multifunction Oven

BE5304001M

MaxiKlasse™ oven with our SoftMotion™ soft close door.

Oven functions

Our SoftMotion™, soft close door automatically closes when the door reaches a certain angle, in a smooth, soft and elegant movement: premium design.

Sleek and stylishly designed our UniSight™ illuminated retractable controls and interactive LCD display provide instant feedback.

Multifunction cooking combines all the benefits of hot air cooking with other functions, like conventional cooking, enabling you to achieve your desired result.

To help you reach perfection the core temperature sensor measures the precise cooking temperature deep inside the food.

Our extra large oven accommodates a large turkey and the ThermiC° hot air cooking system ensures mouth watering results are achieved.

Anti-stick oven shelves have a special chrome coating which prevents grease sticking. Simply clean with hot water.

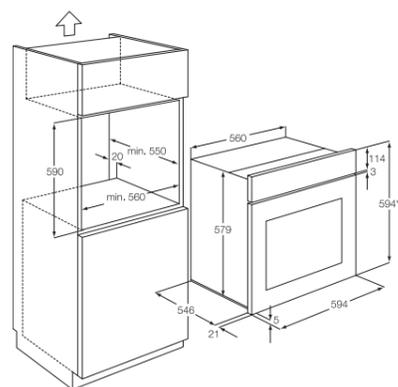

PerfektEntry, effortless shelf insertion means it is easy to select the desired cooking level.

MaxiView enables you to see at a glance the progress of your meal, enhanced by the FloodLight.

IsoFront® oven door with three panes of glass for cooler exterior temperatures.

Also available in BE5304001B Black

Pyroluxe® Ovens

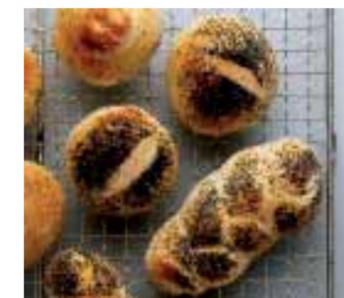

Ovens / MaxiKlasse™ Pyroluxe® Plus

Nobody likes cleaning their oven, our energy efficient Pyroluxe® Plus appliances are not only extremely efficient when cooking but also when self-cleaning.

The Pyroluxe® Plus 1 hour cycle cleans thoroughly and costs just 36p, that's less than a first class stamp*. The self-cleaning function heats the oven up to 500°C.

At this temperature, all food residue is turned to ash, with no unpleasant odours or chemical cleaning agents. Simply wipe out the ash with a damp cloth. There are variable cycles depending on the cleaning need. Some models have more than one cleaning cycle which varies in time depending on how dirty the oven is. Whether it is lightly or heavily soiled these clever ovens will clean themselves to look as good as new – fully automatic self-cleaning at the touch of a button. There is even a cleaning reminder on some models.

*Correct at time of print.

Ovens / MaxiKlasse™ Pyroluxe® Plus with Autocook AutoSense

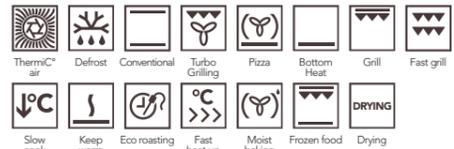

BY9314001M

AutoSense oven with Pyroluxe® Plus cleaning.

Oven functions

Multifunction single oven with digital auto-cooking. The advanced sensor system detects the volume of food in the oven and based on the food category selected, together with the time it takes to heat up, automatically selects the optimum cooking function and precise temperature and time to achieve the perfect result.

NaviSight™ navigational controls make oven operation intuitively simple.

Total self-cleaning oven with our Pyroluxe® programmes, dependent on how dirty the oven is there are various programmes to select. Also the oven will remind you to clean it.

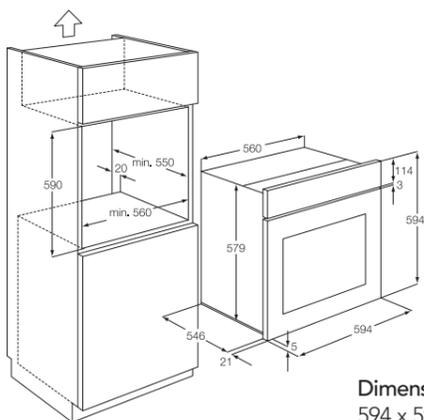

CleanAir Control removes unpleasant smells and is maintenance free. Ideal for open plan living.

To help you reach perfection the core temperature sensor measures the precise cooking temperature deep inside the food.

Anti-stick oven shelves have a special chrome coating which prevents grease sticking. Simply clean with hot water.

Exceptional taste and texture

Whatever your favourite dishes may be, we believe the future of great taste is steam. Giving your cooking taste and texture like never before, steam keeps all the natural juiciness and succulence of your food inside, while still creating deliciously crispy crusts on the outside.

Upon purchase and registration AEG will send you a complimentary Steam Cook Book.

How much steam?

Why steam is better

Cooking with steam prevents flavour exchange between your different dishes – keeping each one tasting just the way you want. It also prevents food from drying out, keeping your dishes succulently moist. Added to which, it preserves the nutrients, vitamins and minerals in your food.

Using steam ensures your dishes cook more evenly, from the surface to the core. And it's more efficient, delivering heat to your food more effectively than dry, hot air. Which means you can cook at lower temperatures.

Full Steam

100% High humidity for delicate fish, rice/cous cous or vegetables.

Half Steam

50% Half-and-half for great results when reheating or cooking frozen food.

Quarter Steam

25% The ideal tender-yet-crisp setting for meat, poultry, bread and cakes.

Conventional

0% Traditional baking, roasting or grilling for classic colour and taste.

Taking our steam oven technology to the next level.

AEG are proud to introduce its new ProCombi SousVide oven, bringing the professional cooking expertise to your home. The AEG sous vide method brings the precisely controlled and gentle steam bathing technique to your food with our highly intuitive multifunction steam oven; the result for you is unrivalled melt-in-the-mouth taste sensations. The marriage of our ProCombi SousVide oven with our specially designed built in vacuum sealer drawer delivers the ultimate steam cooking system to revolutionise the way you cook.

SousVide in just four steps. Innovation every time.

Food cooked using the vacuum-sealed, lower temperature SousVide technique is tastier and healthier. You can cook with absolute purity, sealing in all the aromas, taste and nutrients under vacuum, then applying gentle steam heat to cook delicious dishes.

Vacuum Sealer

The AEG Vacuum Sealer is built into a drawer just below the oven, offering you a perfectly integrated SousVide cooking system.

Step 01

Clean, chop and season.

Prepare

Step 02

Seal all the flavours in the vacuum bag using the AEG Vacuum Sealer.

Seal

Step 03

Place in the oven and select the SousVide function.

Cook

Step 04

Plate and Present

Ultimate explosion of taste is served.

Double Ovens and Freestanding Cookers

Double ovens

Our AEG double ovens offer you an additional cooking compartment, giving you total flexibility in your kitchen. Our range of built-in double ovens are installed in column at eye-level, alternatively, our range of built-under double ovens will fit neatly under the work surface. For even more flexibility you can combine our built-under ovens in column with our compact products.

Freestanding cookers

Designed to look premium and to fit seamlessly into your kitchen layout, our freestanding cookers hold the same design principles as our single oven range, and feature a variety of cooking programmes and functions. The two large cavities provide you with complete cooking flexibility, and are large enough to hold a turkey and all the trimmings for your family feast. With an induction, gas or ceramic hob incorporated, it's the perfect combination for any home.

 AA Energy efficiency

All our double ovens are extremely efficient and have an AA energy rating in both compartments, meaning whichever oven you decide to use, you are guaranteed excellent energy efficiency.

Ovens / Built-in Double Ovens

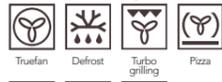

DC7013001M

Compact

Why should space restrictions cramp your style? Our big range of compact appliances give you high-performance while letting you mix and match everything you want, the way you want. It all aligns beautifully with a single, stylish design.

Compact ovens
However you like to create in the kitchen – whether you want to roast, bake, grill, microwave or cook with steam – choose from our wide range of compact ovens to suit every preference.

Compact coffee machine
Always enjoy your coffee just the way you like it with a cappuccinatore jug for steaming and foaming milk, plus precise control over milk and coffee proportions.

Compact wine cellar
Keeps your wines – whatever the bottle size – at exactly the temperature you want with this flexible, stylish storage solution.

Compact warming drawers
Available in different sizes to perfectly integrate in your kitchen.

Performance, concentrated

The new AEG compact range offers powerful performance in a small design. Simply select the combination of appliances to best suit your needs and space, from steam only or multifunction ovens to combi and grill microwaves. Or how about a coffee machine or warming drawer to complete your kitchen?

With AEG Compact, an extended range of options means you should never have to compromise on fitting in everything you need. Our compact ovens have all the features of their full-sized counterparts, but concentrated into a smaller space.

Bespoke customisation

So you can achieve your ideal combination and your perfect layout, ranging items however you like... a horizontal run, a vertical stack, or perhaps a group of four? With AEG Compact, you can create your own style - perfection.

Group of four

Horizontal run

Vertical stack

Compact vertical stack

Compact Ovens

Introducing the compact range

The new AEG compact range offers powerful performance in a small design. Simply select the combination of appliances to best suit your needs and space.

STEAM

Uses 100% steam, retains moisture and nutritional values in the food you cook. Ideal for cooking rice fish vegetables and fruit.

50% STEAM

50% steam and 50% heat helps conserve the texture and humidity of the food. Ideal for casseroles, souffles and re-heating dishes.

25% STEAM

25% steam and 75% heat locks in moisture and browns the outside for irresistible flavours.

TRUE FAN

Gently circulates hot air through the oven cavity, allowing you to cook sweet and savoury dishes at the same time without transfer of flavours.

DEFROST

Air is gently circulated around the oven cavity quickly, defrosting your food hygienically.

MOIST FAN BAKING

Moisture is retained within the oven thus achieving light and fluffy results, perfect for light sponges and souffles.

TURBO GRILLING

Gives you an authentic spit roast effect without the mess. Heat from the top is circulated by the fan, sealing and crisping foods.

CORE TEMPERATURE SENSOR

Measures the precise cooking temperature deep inside the food, taking the guesswork out of the cooking and ensures consistent results every time.

GRILL

Fully controllable powerful grill, ideal for family sized portions of food.

ANTI FINGERPRINT STAINLESS STEEL

A coating on all AEG stainless steel products, eliminates unsightly fingerprint marks ensuring your product looks effortlessly clean.

KEEP WARM

Maintains a temperature of 80°C, ideal temperature for keeping food warm, without drying it out.

FAST HEAT UP

No waiting for your oven to reach full heat, eliminating the need for preheating, great for those quick convenience meals.

SOFTMOTION™

The door will close itself softly and quietly, when it reaches a certain angle.

COMBI MICROWAVE

Combines fan oven functions with traditional microwave.

MICROWAVE AND GRILL

Combines traditional microwave and grill functions.

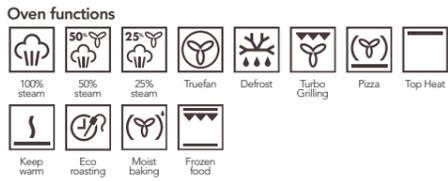

MICROWAVE

Powerful solo microwave with 5 power levels.

Compact Range / Multifunction with Steam Ovens

KS8404101M

Compact ProCombi Steam oven with ProSight touch control.

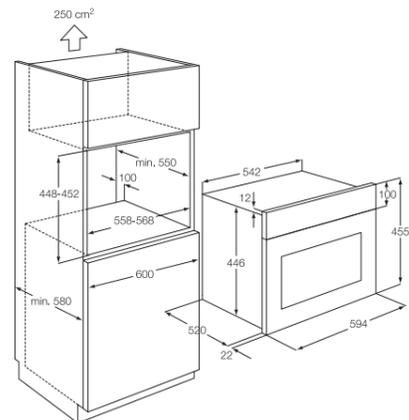

Combining steam with heat. The compact ProCombi multifunction oven uses a combination of steam and heat to enhance flavours and textures.

100% - steam. Steam's gentle heat evenly penetrates food making for tasty, healthy dishes.

Quarter steam and heat. 25% steam and 75% heat are combined to create irresistible flavours. Perfect for cooking bread, poultry, gratins, lasagne and other pasta bake dishes.

Cooks using a combination of 50% steam and 50% heat. Introducing a higher level of steam into your cooking helps conserve the texture and humidity of the food. Perfect for cooking souffles and casseroles, also recommended for convenience foods and reheating dishes as the steam prevents food from drying out.

Multifunction oven lets you cook foods as you like, together with steam options so you can create food that is golden brown on the outside and deliciously succulent on the inside. 90 pre-set recipes for different oven functions.

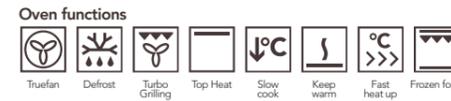

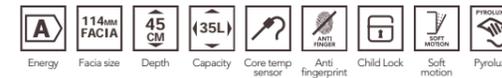

Dimensions (HxWxD) in mm

Microwaves

Microwave – Grill – Defrost – Reheat

Our high-end Neue Kollektion microwave ovens provide a versatile range of cooking solutions in your kitchen. Flexibility is the key. You can microwave, grill, defrost and re-heat. And all this functionality can be used in any combination you desire.

The perfect partner for your oven

Combine a microwave with your traditional oven for the definitive answer to your cooking needs. In addition to conventional cooking methods, you can gently heat liquids without using precious hob space, as well as speed up the cooking process by par-cooking dishes or defrosting meat and fish.

Perfect results with automatic programming

Whether you're defrosting, cooking or grilling your food, our new microwave ovens can be depended upon time after time. They're automatically programmed to deal with a range of different dishes and foods at the touch of a button. Simply select the food type, weight and the microwave does the rest.

Optimal access and ideal cooking capacity

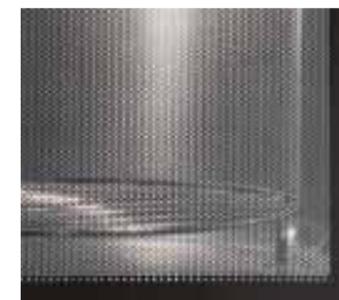

With an expansive XXL cavity size inside our top-of-the-range models, you can prepare large dishes. And it's easy to load and unload heavy plates and trays with the drop-down door.

Stainless-steel interior finish

Our microwaves feature our SOLO range - microwave only; DUO range - microwave and grill flexibility.

Quick start control

Enables you to cook for 30 seconds at full power at the touch of a single button, ideal for common tasks such as warming up drinks. Can be pressed up to 5 times continuously for convenience. All our microwaves are fully built in so no additional building in kits are required. Selected models can be built under counter and all models can be built in column, offering flexibility to fit into your kitchen.

Cooking / Accessories

MaxiSense® Plancha Grill

To enable you to enjoy the precision and control of the MaxiSense® hob when griddling food, we have developed the MaxiSense® Plancha Grill.

This professional griddle distributes and retains heat evenly for perfect results.

Simply combine the Plancha Grill with any MaxiSense® hob that has the 'Bridge' function - enabling you to griddle to perfection over two cooking zones.

Maxi-grill 944 189 319

Fusion Induction Wok

A tool to extend the abilities of MaxiSense® is the Fusion Induction Wok, a unique wok support giving fast, focused heat for optimum wok cooking performance.

Our Fusion Induction Wok can be used with any Induction hob with a minimum zone width of 20cm and our CrystalLine module ceramic hob.

Fusion wok 944 189 320

Cooking / Accessories

CrystalLine Griddle Plate

A specially designed griddle plate that can be used together with our ceramic CrystalLine modular hobs.

This griddle evenly distributes and retains heat for perfect grilling. With an anti-stick coating and special feet, it's very practical and easy to clean.

C-grill 944 189 325

Telescopic Shelf Runners

One set of fully extendable telescopic shelf runners suitable for use with our new MaxiKlasse™ oven range.

TR1LFV

One set of fully extendable telescopic shelf runners suitable for use with our new MaxiKlasse™ steam ovens.

TR1LFSTV

Hobs

Choosing a hob is very much a matter of personal preference, so our Neue Kollektion offers a wide range. Gas is instant with fully automatic ignition, while electric ceramic and induction hobs take control to a whole new level of sophistication.

Cooking without limits

With the MaxiSense® induction hob, you no longer have to limit your choice of cooking pan to the circle on the hob. Just place the pan so that it covers a cross, and MaxiSense® adjusts to heat precisely that size and shape.

Gas on glass

The Neue Kollektion's gas on glass hobs offer a beautifully balanced composition of glass and stainless steel, ideal for integrating into a high-end worktop. Alternatively, our professional-looking pure stainless steel range is both durable and elegant, with a low profile ideal for flush mounting.

Your perfect combination

The CrystalLine range lets you build a professional-standard cooking area precisely to your needs, with options including induction wok, gas and even induction Teppanyaki. With their unique glass-bar design and DirekTouch instant control interfaces, the modules combine to stunning effect, whichever you choose.

Hobs

Induction – the most energy efficient and responsive technology.

DIREKTOUCH

Touch controls for quick and precise heat level selection.

ROTARY CONTROLS

DirekTouch Rotary controls for quick, precise heat level selection.

BRIDGING ZONES

Bridge function links two zones creating a larger zone for versatile cooking.

OPTIHEAT

Shows 3 levels of residual heat on each cooking zone.

MAXISENSE®

Gives you greater flexibility as pans can be positioned at any position as long as the cross is covered. Perfect for oversized pans.

MAXISIGHT®

TFT colour display that ensures you can see every important detail at a glance.

STOP+GO

Reduces all zones to a keep warm setting if cooking is interrupted. Press again and the zones return to previous heat levels.

WOK

Induction wok hob, designed for a large wok that accompanies the hob.

CHILD LOCK

Controls can be locked for additional safety and prevent alteration to cooking selection.

COUNT-UP TIMER

Set a reminder or use the count-up timer to keep in control of your cooking.

ÖKO TIMER

Energy saving timer that switches off the zone and uses residual heat to complete the last few minutes of cooking.

Gas

NO. OF BURNERS

Number of burners on the hob.

WOK

Wok rest and large burner provides maximum heat for wok cooking on gas.

AUTOMATIC IGNITION

Steel capped control knob with an integral ignition.

Ceramic - HiLight

DUAL ZONE

Automatic hob recognition for two pan sizes.

TRIPLE ZONE

Automatic hob recognition for up to three pan sizes.

MULTI-PURPOSE ZONE

Multi-purpose zone for hob cooking flexibility. Ideal for larger pots.

RESIDUAL HEAT INDICATOR

Shows you the level of residual heat on each zone after cooking.

TOUCH CONTROL

Precise and immediate temperature control at your fingertips.

HK634030FB

60cm ceramic hob with AutoMax feature.

Induction Hobs

Induction technology is the fastest, safest and most energy-efficient way to cook on a hob, heating the pan directly with no pre-heating required.

MaxiSense® induction hobs look stunning too, with their sleek, smooth designs – perfect for the most beautiful kitchens.

Nothing is faster
MaxiSense® induction is simply the quickest way to cook, capable of bringing a pan to the boil faster than a comparable gas or conventional electric hob.

Precision power
Heat can be adjusted and controlled precisely with extreme sensitivity. It can be very powerful indeed, or just gentle enough to melt chocolate directly in the pan.

Extra safe
All AEG induction hobs feature automatic pan recognition. By sensing a pan's shape and size, it ensures only the base is heated, leaving the surrounding area always safe to touch.

Simple to clean
Spills and splashes can be easily wiped away with a damp cloth, no need for scrubbing or soaking as food will never get burnt on with induction.

Induction technology

Coils create a magnetic field that adapts to the size and shape of the cookware, heating just its bottom – while surrounding areas remain cool. Up to 90% of the energy used goes into heating your pan.

Traditional heating technologies

A high share of energy is wasted by heating up the entire cooking circle and surrounding air. On a gas hob, only up to 55% of the energy used goes into heating your pan.

MaxiSight® Induction

AEG has a range of MaxiSight® induction hobs, with all the benefits of induction and the flexibility of MaxiZones.

MaxiSight® Range
Featuring a colour hob display, MaxiSight® gives clear, at-a-glance feedback for each zone, with count-down and count-up timers, temperature and progress indicators.

Bridging Function
On some models, two individual zones can be bridged and function as one with just one temperature selection and timer. Perfect for larger pans such as fish kettles.

Complete Control
Induction technology keeps you in complete control of your cooking. Temperatures are controlled instantly with a simple touch.

Induction Hobs / MaxiSight®

HK884400XG

80cm MaxiSight® induction hob with 4 MaxiSense® sections.

The MaxiSight® TFT colour display ensures that you can see every important detail at a glance.

MaxiSense® – Total Flexibility

MaxiSense® isn't limited by standard circle zones. So now you can use long shaped and bigger pans when entertaining. All you have to do is ensure the pan covers the cross mark.

Design that always looks good

All AEG induction hobs are made of resilient, high quality black glass, so whichever style you choose, it will be a beautiful complement to any modern kitchen.

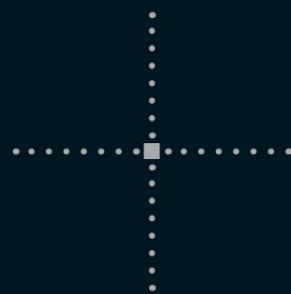

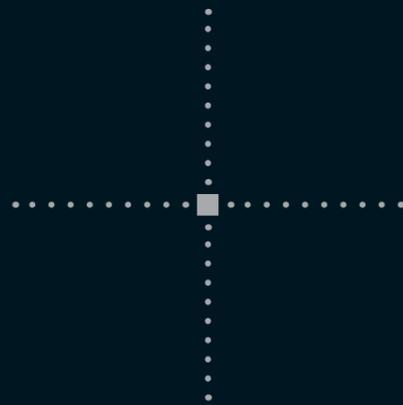

No limits cooking

The MaxiSense® hob gives you more freedom to create. Just place each pot so that it touches a cross and MaxiSense® adjusts to heat precisely that size and shape.

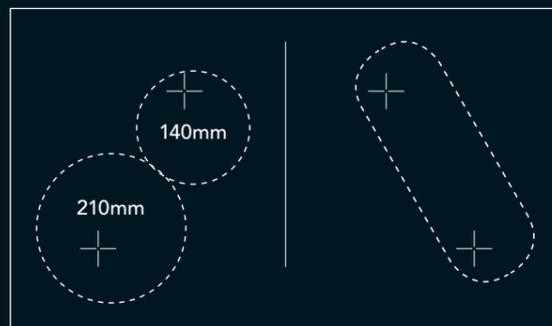

DirekTouch control

MaxiSense® is controlled by DirekTouch, instantly-responsive fingertip controls, letting you set and adjust temperature to an exceptionally high degree of accuracy, with just one touch.

Borderless cooking with MaxiSense® means that you can use the cookware required for precision work. It's perfect for specialist cooking styles that require large, unusual shaped items such as a fish kettle, griddle pan or wok.

MaxiSense® Combi

Features a large auto-sensing FreeZone cooking area, letting you place pots and pans anywhere you want, whatever their size or shape.

Cook anywhere with FreeZone
Enjoy complete flexibility with our extra large 470 x 300mm FreeZone cooking area of 20 small self-sizing coils, letting you place up to three pans anywhere that you want – whatever their shape or size.

FullTouch colour display
Bringing intuitive interaction to the way you cook, the large full touch colour display shows each pot position and power level, while the full text display lets you easily navigate menus to access additional functions, hob settings and help menus.

Boil, simmer, keep warm
Our advanced ProCook function lets you create a French Zone area with predefined temperatures settings: hot at the front and warm at the back. Simply slide your pan around to adjust the cooking temperature.

80cm MaxiSense® Induction hob with 5 Zones.

Huge 80cm wide cooking space.

5 MaxiSense® Zones suitable for total cooking flexibility.

DirekTouch controls for quick, precise heat level selection.

AutoMax quickly brings the hob to the boil, then automatically reduces to the pre-selected power level.

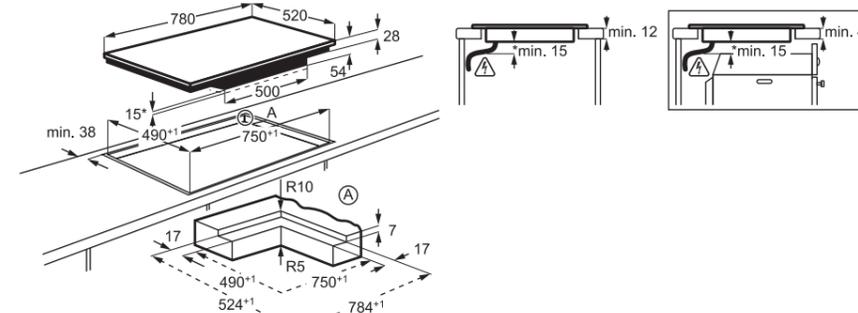

Power Booster for intense rapid heat up.

Öko Timer, save energy by setting the timer which cleverly switches off the zone and uses residual heat to complete the last few minutes of cooking.

Stop+Go reduces all zones to a keep warm setting if cooking is interrupted. When you return to cooking, Stop+Go remembers the selected settings.

OptiHeat control with 3 levels of residual heat on each cooking zone.

Controls can be locked for additional safety and prevent alteration to cooking selection.

Controls can be locked for additional safety and prevent alteration to cooking selection.

Seamless interaction Hob2Hood

Your hood is controlled automatically according to your hob settings, keeping the kitchen fresh whilst you enjoy cooking.

One touch control

When your hob starts heating up, the temperature sensors send a signal to your hood for the fan to start in up to two steps; first before reaching to boiling temperature, then before frying temperature has been reached.

It is always the hottest zone that will align with the generous signal that is sent to the hood. There is a dedicated touch pad on the hob for the user to change or cancel the fan speed manually.

Energy-efficient Ventilation

Always striving to be an idea ahead, we have designed our award-winning cooker hoods so that they complement any kitchen and co-ordinate beautifully with AEG hobs and ovens.

Our intelligent technology results in hoods that complement your way of living, incorporating intuitive lighting and energy-efficient performance.

From unique designer hoods to stylish island models – all with powerful yet whisper-quiet functionality – the latest AEG range is our widest ever.

So, whether you prefer to be discreet or make a bold statement in the kitchen, you can have the cooker hood that perfectly suits your style.

Award-winning design

Our sleek new range of glass and stainless steel hoods match high-end performance with high-end design. Our most recent range received prestigious Red Dot and iF design awards in 2013.

Energy-efficient

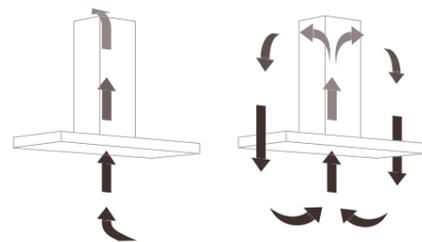

With new energy label regulations coming in 2015, all our hoods ensure A Class energy efficiency – so you can choose the one you want while saving energy.

Peak performance

AEG cooker hoods have a range of superior features, including the ActiveHeat Sensor, which adjusts the power level to your exact needs, and the Direct Touch glass display.

How does it work?

A high-performance hood filters air and – depending on the model – either expels it outside or returns it clean to the kitchen.

CLEANING

When reaching for that extra pan or large serving dish, a serious cook should never have to worry about whether the dishwasher will get it clean. That's why ProClean™ has a capacity of up to 15 settings, with superior cleaning right to every corner, along with the best care for your most delicate glassware.

Integrated Dishwashers	188
------------------------	-----

Freestanding Dishwashers	194
--------------------------	-----

Superior Glas care

It's all about the food. Or is it? Research has revealed that the style of our cutlery and plates affects how we perceive what we eat. A yogurt tastes richer from a heavy bowl; dark chocolate is better when served on angular plates; cheesecake is most appreciated when served on round plates.

Creating the ultimate taste experiences means using a variety of cutlery, plates and glasses. And it means caring for them all properly. Which is why we have developed a range of smart dish care appliances.

Our dishwashers not only accommodate dishes of varying sizes, but they also give you supreme glass care. With or without stems, bowl-shaped or straight – whatever type of glass, we give you the gentle care that both cleans and preserves them to ensure you can enjoy your meals with the utmost satisfaction.

Superior glass care

SoftGrip rubber clamps hold your stem glasses, protecting them from tilting or getting damaged.

Holds larger glasses perfectly in place

Rubber SoftSpikes® provide extra support for your glasses.

Beer glass holder

Holds larger glasses perfectly in place.

Glass programme

The glass programme – in combination with rubber SoftGrip and SoftSpikes® – protects all your glassware from scratches and breakages, leaving them sparklingly clean.

Superior spray coverage

FlexiSpray gives you five spray levels and double rotating Satellite Spray Arm which reaches even the most crowded areas.

Adapts to each item

The programme ensures that your glasses are treated gently in the upper basket, while pots and pans are intensively washed in the lower one.

LAUNDRY

Removable cutlery tray for easy loading and unloading, as featured in 15 place setting models

More space and flexibility

Our ProClean™ range has dedicated space to fit all your cookware and is designed to handle any load regardless of size. The XXL tub, which is available with up to 15 settings, gives you more loadable volume than any other dishwasher currently available on the market, without taking up more space in your kitchen.

Satellite Spray Arm with double rotation to enhance the cleaning performance.

Superior Cleaning

With the new generation of ProClean™ dishwashers you can stop worrying about your dishes getting clean. Our FlexiSpray technology with five spray levels, Satellite Spray Arm and adaptable programs ensure that your dishes will always be perfectly clean.

Ease of installation

PefektFit™ Technology allows the door to be opened completely without coming into contact with the plinth, easy and flexible installation.

Quiet Mark

Quiet Mark is the international mark of approval from the UK's Noise Abatement Society, endorsed by DEFRA, awarding the quietest high performance technology and solutions to reduce unwanted noise in our environment. Often you can't tell how loud an appliance is going to be until you plug it in at home, Quiet Mark helps you select the lowest noise level products with a trusted acoustic assessment. Please look out for the Quiet Mark logo on some of our dishwashers.

Villeroy and Boch

To keep your beautiful glassware looking like new, Villeroy and Boch recommend using the new AEG Dishwasher with patented SoftGrips® for perfect care of your fine crystal and glass.'

Dishcare range

Dishwashers

ProClean™ dishwashers are designed to take everything from fine crystal to fish kettles.

TIMEBEAM

Our dishwashers are really quiet. So our fully integrated dishwashers projects the programme time remaining, onto the floor.

AUTO OFF

This function completely eliminates energy use in standby mode, representing a breakthrough in energy efficiency.

SENSORLOGIC

Uses two sensors to measure the size of load and soiling of dishes, electronically fine tuning the selected programme to the specific needs of the wash loads.

PROZONE

Ideal for the most challenging cleaning, with water pressure up to 3 times higher and temperature up to 25% higher in the lower basket.

FLEXILIFT

Allows you to adjust the upper basket position whether it's empty or full, depending on your load and the space needed.

CAPACITY

Capacity is based on 'IEC' standard place settings. This standard allows you to compare the capacity of dishwashers using a common measure.

MULTITAB

Adjusts the time and temperature of the wash phases for sparkling results.

XXL TUB

Our ProClean dishwasher has a larger tub with an extra 10 litres of space, more capacity for those irregular shaped items.

WATER CONSUMPTION

Our dishwashers use the minimum amount of water needed to wash the load, saving energy.

FLEXISPRAY

With five spray levels, satellite spray arm and a third ceiling arm you experience impeccable cleaning whatever the load.

LED DISPLAY

For programme selection with time remaining and progress indication.

EXTRA HYGIENE

Extends the final rinse, useful for chopping boards and cooking utensils.

SOFTSPIKES®

Gives your glasses and cups extra stability when moving the basket and during cleaning.

PROBOOST

Increases jet water pressure for extra cleaning effectiveness when you need it.

GLASS CARE

Glass programme suitable for all dishwasher-safe glassware.

SOFTGRIP®

Special SoftGrip® clamps will hold stem glasses safely with an extra gentle grip.

TIME SAVER

The Time Saver function allows additional flexibility, with the option to reduce programme cycle times by up to 50 percent.

Dishcare / Semi built-in ProClean™ 60cm

The Auto Off function completely eliminates energy use in the standby mode.

Luxury Hold auto-balancing hinges mean the door will hold its position at any angle for easier loading and unloading.

Our DryTech system gives an improved drying result by removing steam from the dishwasher.

Programmes: 30 MIN 60°, 50 MIN 55°, Auto 45-70, Eco 50, Extra Silent, Glass 45, PRO 70°, ProZone.

LAUNDRY

With our new washers, dryers and washer dryers, you can look after even your most delicate items with complete confidence. Designed to give your fabrics the gentlest care – so they always look their best and last longer – the new AEG range means you never have to worry about what you wash. You'll get perfect results every time, using up to half the energy of other machines.

LAUNDRY

STANDARD FEATURES

WASH CAPACITY

Generous drum capacities offer more space for the movement of delicates, and allow you to wash larger loads at once, saving both time and energy.

WASH & DRY CAPACITY

Automatically wash and dry up to 6kg in a single, fully automatic operation.

SPIN SPEED

Choose a spin speed to suit you. We estimate that increasing your washing machine cycle by 200rpm will reduce tumble-drying time by up to 10 minutes.

ENERGY EFFICIENCY CLASS

By incorporating advanced technologies, AEG appliances minimise energy usage and reduce running costs.

WASH PERFORMANCE

With a standard wash performance rating of 'A', whichever freestanding appliance you choose, you're going to get great results.

SPIN PERFORMANCE

Higher spin performance ensures better water removal at the end of the cycle, cutting down drying times.

SUPERIOR TECHNOLOGY BENEFITS

PROSTEAM

Special steam programmes reduce creasing, refresh your clothes and can be used as an alternative to dry cleaning.

WEIGHT SENSOR

An advanced weight sensor displays the exact load size and recommends how much detergent to use to achieve perfect results.

OPTISENSE

OptiSense wash technology automatically adjusts the cycle time, water usage and energy consumption to adapt to each load meaning your clothes will stay looking newer for longer.

INVERTER MOTOR

The brushless construction of our inverter motor is extremely energy efficient, quiet and durable. It also ensures precise drum rotation, giving shorter times and gentler fabric care.

SILENT SYSTEM PLUS

Silent System technology incorporates a brushless motor, panel insulation, drum balancing and shock absorbers to deliver exceptionally quiet operation.

SUPERIOR TECHNOLOGY BENEFITS

HEAT PUMP TECHNOLOGY

Advanced Heat Pump drying technology recirculates warm air to save energy. Drying at lower temperatures also ensures that your delicates are in safe hands.

PROTEX DRUM (Washing Machines)

Our gentle ProTex machines reduce bobbling and treat delicates with care by cushioning fabrics in an innovatively designed ProTex drum.

PROTEX DRUM (Tumble Dryers)

Our ProTex dryers feature a new soft pattern drum design and a special airflow system to guarantee gentle treatment and uniform drying.

TIME SAVER

With Time Saver, you can reduce wash cycle times by up to 60%. Perfect for lightly soiled clothes that you need in a hurry.

DIRECT SPRAY

Direct Spray is a continuous shower system that guarantees all loads receive consistent cleaning throughout. The wash is quickly saturated with water, preventing any chance of detergent staining at the beginning of a cycle.

SUPERIOR TECHNOLOGY BENEFITS

AUTO OFF

Auto Off automatically switches off your machine when the programme has finished, for zero energy consumption.

XXL DOOR

Loading and unloading is made easier with a 340mm door opening. The door also opens to 160°, meaning it can be easily moved out of the way to ensure trouble-free loading of bulky items like bedding.

DELAY START

With a delay start of up to 20 hours, you can programme the machine to finish the wash cycle when it is most convenient for you.

LOGICONTROL DISPLAY

Our unique LogiControl™ display allows you to control washing, rinsing and cycle settings intuitively, as well as showing you the progress of the wash cycle.

LED DRUM LIGHT

An internal LED drum light gives you a clear view of the entire drum.

WOOLMARK

The prestigious Woolmark certification is awarded in recognition of extra gentle wool care. See page 205.

SUPERIOR TECHNOLOGY BENEFITS

STAINS PREWASH

A dedicated fourth compartment in the soap drawer dispenses stain removing treatments at 40°C to optimise performance.

QUIET MARK

Quiet Mark accreditation provides peace of mind that these appliances operate at minimum noise levels.

SENSOR DRYING (Tumble Dryers)

Achieve the drying result you require, with sensor programmes that automatically switch off when your clothes are dry to ensure perfect fabric care.

ANTI CREASE (Tumble Dryers)

An extra large drum featuring three lifters and reverse tumble action ensures uniform drying. After the drying cycle has finished, the Anti Crease option intermittently rotates your clothes to reduce creasing.

EASY CLEAN FILTER (Tumble Dryers)

The new easy clean filter combines the traditional drum and condenser filters, so now you can save time by only cleaning one filter.

LAUNDRY PROGRAMMES

EXTRA SILENT PROGRAMME

The Extra Silent programme has no intermediate spins and ends in Rinse Hold - perfect for use at night.

QUICK WASH PROGRAMME

Refresh up to 3kg of laundry at 30°C in 20 minutes with the Quick Wash programme. Perfect for 'worn once' or lightly soiled clothes.

DUVET PROGRAMME

Special duvet programmes on both our washing machines and tumble dryers are extra gentle, to ensure that your duvet is kept looking fresh and new.

EASY IRON PLUS PROGRAMME

Easy Iron Plus adjusts the water level and spin speed to reduce creasing by up to 50%.

WOOL PLUS PROGRAMME

Our Wool Plus programme features gentle drum movement and a special cool down phase to reduce the risk of shrinkage.

QUICK WASH & DRY

For an ultra quick 1kg complete wash to dry programme in only 60 minutes, use our Quick Wash & Dry programme.

ANTI-ALLERGY PROGRAMME

Our anti-allergy programme removes various allergens by maintaining a washing temperature of 60°C.

Laundry

Built-In Washing Machine and Washer Dryer

L61271BI

Fully integrated washing machine fits seamlessly into your kitchen.

L61271WDBI

Fully integrated washer dryer fits seamlessly into your kitchen.

Freestanding Washing Machines

L88409FL2

Stylish '8 series' 1400rpm washing machine with extra large 10kg capacity.

L98699FL

9kg ProSteam washing machine with Woolmark Blue certification.

L87490FL

9kg ProSteam washing machine with Woolmark Blue certification.

L76685FL

'7 series' 1600rpm washing machine with large 8kg capacity.

L76485FL

'7 series' 1400rpm washing machine with large 8kg capacity.

L76285FL

'7 series' 1200rpm washing machine with large 8kg capacity.

L76475FL

'7 series' 7kg 1400rpm washing machine.

L76275FL

'7 series' 7kg 1200rpm washing machine.

Freestanding Tumble Dryers

Heat Pump Condenser – Heat Pump technology recycles warm air to maximise energy efficiency and lower running costs.

T86585IH

8kg Absolute Care tumble dryer with Heat Pump technology for gentle, energy efficient drying.

T75380AH2

8kg '7 series' Heat Pump tumble dryer for gentle drying.

T65370AH3

7kg '6 series' Heat pump tumble dryer for gentle drying.

Condenser Dryers – With no requirement to 'vent' the damp air, condenser dryers can be located anywhere in the home for maximum flexibility.

T86280IC

8kg '8 series' condenser dryer with ProTex soft drum.

T76280AC

8kg '7 series' condenser dryer with ProTex soft drum.

T75280AC

8kg '7 series' condenser dryer with ProTex soft drum.

Vented

T61270AC

7kg '6 series' condenser dryer with ProTex soft drum.

T65170AV

7kg Vented dryer with ProTex soft drum.

Freestanding Washer Dryers

L87696WD

'8 series' washer dryer with steam function.

L75670WD

'7 series' washer dryer with ProTex soft drum.

Ultimate care for delicates

ProTex drum

Reduces bobbling and treats delicates with care.

Wool Plus programme

Adjusts the drum speed and rotation so that woollen garments lay flat on the drum wall, ensuring a gentler wash.

Special steam programmes

Reduce creasing or refresh your clothes. These programmes can be used as a cost-effective alternative to dry cleaning.

Fabrics stay softer and brighter for longer

OptiSense wash technology automatically adjusts the cycle time, water usage and energy consumption to adapt to each load meaning your clothes will stay looking newer for longer.

Retains fabric shape

AEG dryers with heat pump technology dry clothes at much lower temperatures (50 degrees lower) than standard dryers for the gentlest of drying. Drying at lower temperatures ensures that your delicates are in safe hands.

The AEG fabric care range

Gentle fabric care

With our new washers, dryers and washer dryers, you can wash and dry even your most delicate fabrics with complete confidence. You'll not only get perfectly soft and fresh laundry every time, but you will also benefit from using one of the most energy efficient machines available.

The Woolmark Apparel accreditation identifies appliances that care for 'machine wash' woollen garments.

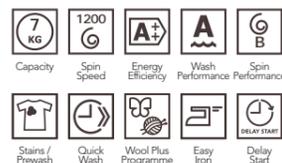

The Woolmark Blue accreditation identifies appliances that care for 'hand wash' woollen garments.

Laundry / Washing Machines

With a delay start of up to 20 hours, you can programme the machine to finish the cycle when it is most convenient for you.

With a delay start of up to 9 hours, you can programme the machine to finish the cycle when it is most convenient for you.

Advanced controls with LCD display for programme confirmation and audible signal for programme end.

Dimensions (HxWxD) in mm
850 x 600 x 570

Laundry / Washer Dryers

L61271WDBI

Fully integrated washer dryer fits seamlessly into your kitchen.

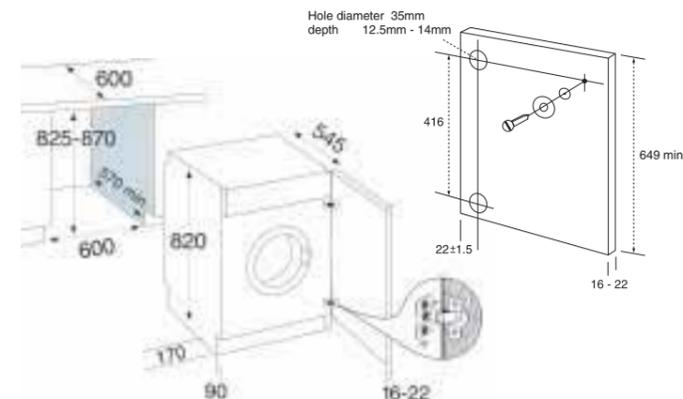

Our Wool Plus programme features gentle drum movement and a special cool down phase to reduce the risk of shrinkage.

Easy Iron Plus adjusts the water level and spin speed to reduce creasing by up to 50%.

With a delay start of up to 20 hours, you can programme the machine to finish the cycle when it is most convenient for you.

Advanced controls with 3 digit LCD display for programme confirmation and audible signal for programme end.

Refresh up to 3kg of laundry at 30°C in 30 minutes with the Quick Wash programme. Perfect for 'worn once' or lightly soiled clothes.

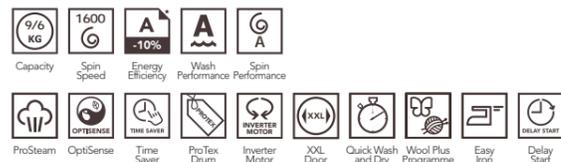

Dimensions (HxWxD) in mm
820 x 596 x 545

Laundry / Washer Dryers

L87696WD

'8 series' washer dryer with steam function.

Special steam programmes reduce creasing, refresh your clothes and can be used as an alternative to dry cleaning.

OptiSense wash technology automatically adjusts the cycle time, water usage and energy consumption to adapt to each load meaning your clothing will stay looking newer for longer.

With Time Saver, you can reduce wash cycle times by up to 60%. Perfect for lightly soiled clothes that you need in a hurry.

Our ProTex dryers feature a new soft pattern drum design and a special airflow system to guarantee gentle treatment and uniform drying.

The brushless construction of our inverter motor is extremely energy efficient, quiet and durable. It also ensures precise drum rotation, giving shorter times and gentler fabric care.

Loading and unloading is made easier with a 340mm door opening. The door also opens to 160°, meaning it can be easily moved out of the way to ensure trouble-free loading of bulky items like bedding.

Cooks, The Carlton School of Food is more than just a cookery school; Cooks is a place to discover food. Our partnership with AEG kitchen technology enables us to achieve incredible results in delivering our sensory food experiences. Learn to grow, cook, photograph or write about food. Come to bake, butcher, forage, preserve, get back to basics or further hone your skills. Explore the kitchen wisdom from the past or the daring foods of the future. The setting in 250 acres of parkland is glorious. The school is in the original kitchens of Carlton Towers, Carlton near Selby, Yorkshire. Carlton Towers is an ancestral home belonging to the Duke of Norfolk's family and home to the Duke's brother and sister-in-law, Lord and Lady Gerald Fitzalan Howard. Cooks welcome everyone, from the absolute novice to the professional chef, the enthusiastic amateur, gap year student or those already running food-led businesses. Above all, courses at Cooks are informative, inspirational and fun. Be prepared for a good time.

At Daylesford, we're passionate about real food – fresh, seasonal and, most importantly, delicious. Our commitment has been rewarded with over 60 national and international awards in the last three years alone. Our organic farm in Gloucestershire is home to our market garden, our bakery and our creamery as well as all our animals – and our beautiful cookery school. Equipped with state of the art AEG facilities, and surrounded by rolling countryside and acres of working farm land. The Cookery School at Daylesford is housed in a painstakingly restored Cotswold-stone barn. A course at our cookery school will reveal a range of techniques, recipes and skills to help you make the most of delicious seasonal ingredients, all straight from our farm. We offer a wide range of courses for every level from complete beginner to the most proficient home cook.

Steamed marmalade pudding

Serves 2

Ingredients:

- 2 Oranges
- 1 Egg
- 15g Brown sugar
- 50g Self-raising flour
- 50g Butter
- 50ml Pouring cream
- 50g Caster sugar

Two worlds collide here with an unctuous, steamed pudding and sweet, sticky oranges. Steamed puddings are a stalwart in every traditional kitchen repertoire, this recipe leaves behind the heavy, one dimensional reputation and replaces it with a light and sticky pudding that is a joy to eat.

Method

Zest the oranges, reserving the zest. Heat the juice of one orange and the sugar gently until the sugar dissolves. Pour the syrup into a small pudding basin and allow to cool while you make the rest of the mixture.

Cream together the butter and sugar until pale, light and fluffy. In a separate bowl, crack and beat the egg. Add the egg to the butter mixture slowly, whisking through. Add the juice of the remaining orange and the zest of both. Fold in the sieved flour to finish the batter and pour over the syrup.

Cover with a double layer of greaseproof paper, secured with an elastic band and steam using full steam setting for 45 minutes. Remove and allow to rest before turning out and finishing with pouring cream.

Steamed seabass with crushed soya beans and chilli sauce

Serves 2

Ingredients:

- 1 Whole Seabass
- 1-2 Heaped tbsp salted soya beans
- 2 Cloves garlic
- 1 Birdseye chilli
- 2 Spring onions
- Handful of coriander

The Sauce

- 1 tsp Chilli bean paste / chilli paste
- 1 tbsp Hoisin sauce
- 1-2 Capfuls rice wine
- 1 Ladle of stock / hot water
- 1 Dash dark soy sauce

Method

Finely chop the garlic and Birdseye chilli and place in separate prep bowls. Finely chop the spring onion and coriander and place in a small prep bowl. Wash the fish and pat dry. Mix the sauces together in a bowl. Lightly crush the soya beans.

Place the fish in the steam oven at full steam using the following timings as a general rule of thumb: Allow 7-12 minutes depending on the size of the fish (small fish [<300g] 7-8 minutes, medium fish [300g-500g] 9-10 minutes and large fish [500g-750g] 10-15 minutes).

Whilst the fish is cooking, heat 2 tablespoons vegetable oil in a wok to high heat. Once smoking hot, add the garlic and chillies, and immediately add the soya beans. Stir-fry on medium heat for 30 seconds. Now bring the wok to a high heat all 'The Sauce' ingredients to the wok. Continue to stir-fry on a high heat. Bring the sauce to a vigorous boil. If necessary, thicken with some corn flour paste. Stir gently and then pour on top of the fish once the fish is cooked.

* If sauce is too thick, add a dash of hot water to the wok whilst cooking through. If too thin, use corn flour paste to thicken.

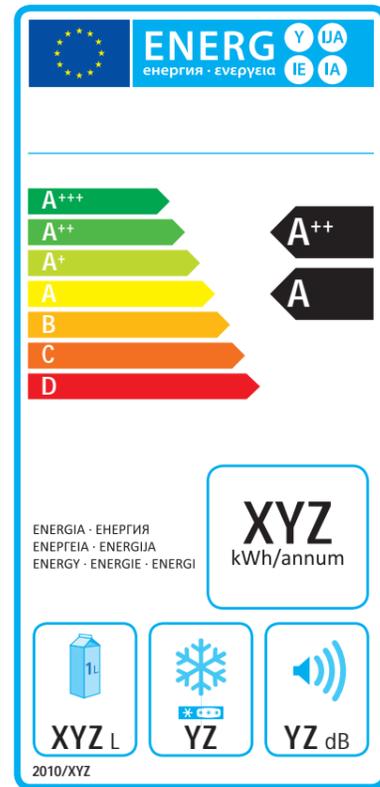

Serve on a large plate and garnish with plenty of spring onion and coriander

Energy Information / EU Energy Efficiency Information

For refrigerators and freezers, as well as stating the energy efficiency class (A+++ - most efficient, 'D' - least efficient) the label also gives the annual electricity consumption (i.e. running cost) freezing capacity, noise level and the usable storage capacity.

Example of refrigeration energy label.

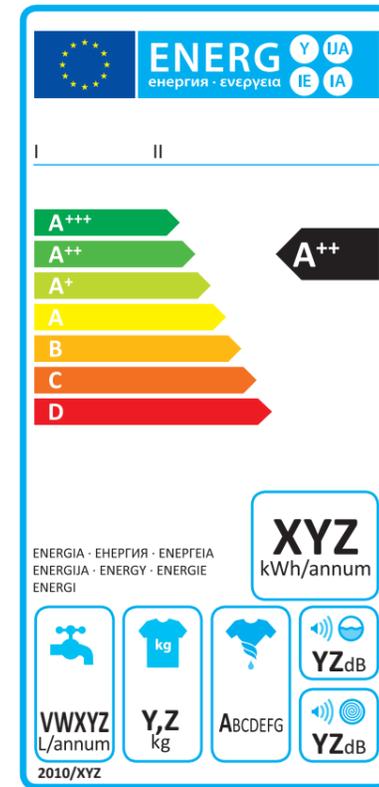

For electric ovens, as well as stating the energy efficiency ('A' - most efficient, 'G' - least efficient), the label also states the energy consumption (in kWh) and the usable volume of the oven. If the oven is a double oven it will carry this information for both ovens.

For dishwashers, as well as stating the energy efficiency class (A+++ - most efficient, 'D' - least efficient) the label also states the annual water consumption (lts), drying efficiency, place settings and noise level.

Example of dishwasher energy label.

For washing machines, as well as stating the energy efficiency class (A+++ - most efficient, 'D' - least efficient) the label also states the annual water consumption (lts), load size (kg), spin speed efficiency and the washing & spinning noise levels.

Example of washing machine energy label.

This scheme, which covers refrigerators, freezers, washing machines, tumble dryers, dishwashers and electric ovens is designed to offer consumers a standardised method of choosing the most energy efficient appliances.

After Sales Support / Customer Care

WARRANTY

AEG appliances come with a 12 month warranty from date of purchase. When you register your new appliance your warranty will be extended to 2 or 5 years (depending on model). During your warranty period you are protected against the cost of parts, call-out and labour charges. All work is carried out by our national network of approved AEG engineers.

You can register your appliance by completing the warranty registration card enclosed with your appliance, calling our dedicated warranty registration phone number printed on the card, or online at www.aeg.co.uk

For additional peace of mind you have the option to extend your guarantee even further with our AEG Protection Plan. You'll be protected against damage caused by accident from the moment you join and if one of our approved engineers can't fix it, you could receive a brand new replacement. This coverage is provided by our specialist insurers Domestic and General.

To find out more visit www.aeg.co.uk or call **0800 479 0775**

CUSTOMER SERVICE

Should you need to contact us about your product we have a dedicated AEG customer service team to help. Our team is based in the AEG UK head office and can be contacted by phone on **03445 611 611** or via www.aeg.co.uk

LOCAL SERVICE, NATIONWIDE

Our national network of Service Force agents provide product maintenance, genuine parts and repairs for all AEG Major Appliances. Genuine AEG parts ensure you continue to experience the excellent performance you expect from your AEG product.

If you require a visit from one of our agents for your Major Appliance please call our Service Force team on **03445 616 616**.

PRODUCT INFORMATION

Here you can view the full range of AEG appliances, compare models, find your nearest kitchen retailer, download product manuals and download our detailed brochures and specifications. If you want to know more about your new appliance, register your warranty or have a product issue, you can contact our Customer Services or use our online troubleshooter.

FIND A KITCHEN RETAILER

Find your nearest AEG stockist using our online store kitchen retailer. Just enter your details (postcode or town), select the distance from your location, and click 'search' and a list of your nearest AEG kitchen retailers will appear.

Our kitchen retailers are experts in all things AEG, they will be able to answer any questions you have on the range, advise you on the most suitable products for your needs and give you the opportunity to see and touch the products (Some kitchen retailers have live kitchens so live demo's may be available.) Ask your local kitchen retailer for details before visiting.

AEG SHOP

Purchase official AEG accessories and spares for your appliances at the AEG online shop. The store is simple and convenient to use, you can track your orders and place repeat orders to save you time.

There is an extensive range of AEG designed equipment to complement and enhance your experience of your appliances. You will find everything from specialist Induction hob accessories to replacement filters, spare light bulbs, cooling shelves and dishwasher baskets, all designed and approved by AEG.

AEG STEAM APP

We have launched the AEG Steam app to help you get started with your ProCombi steam oven. The app takes you through features, functions and helpful quick tips to help you get the best from your appliance.

You will also find recipes for all three steam settings which vary in difficulty and give you a flavour of what is possible with your oven.

Our app is available for iPad users. To download the free app, search 'AEG Steam Cooking' in the app store.
