

Category 1)

BEST SUSTAINABLE SCHEME OR INITIATIVE

Entrants must demonstrate how their products, initiatives or developments are excelling and innovating in the drive to improve sustainability in new home developments, be that energy saving, carbon reduction, reducing waste, saving resources, reducing water-use etc

The category is open to initiatives, systems, homes or developments.

Entries will be judged on some or all of the following:

- How they contribute to reducing carbon emissions, water use, waste, energy etc on a new homes development or in relation to a new homes development
- Awareness of the zero carbon and sustainability agenda
- Demonstrating provable sustainability credentials – saving resources and encouraging health and well-being
- Practicality for the housebuilder in terms of cost, use, buildability
- Contribution to energy saving/ efficiency for the end user

THIRD PARTY TESTIMONIALS ARE WELCOMED AND ENCOURAGED IN ALL CATEGORIES
