

# Access Coins

## The Complete ERP for Home Builders

# 14 of the 20 Largest Home Builders in the UK use Access Coins.

Access Coins is an end-to-end, fully integrated, modern platform that brings everything home building teams need in one place with a single login.

## Total Cost Control

Track budgets in real-time, including intelligent business planning and powerful forecasting

## Full Visibility of Your Projects

All the data you need, from at-a-glance KPIs to granular insights

## Reduce Administration with Automation

Build automated workflows and speed-up approvals

## Unlock Efficiencies Across Every Part of the Home Building Lifecycle

Covers everything from cost estimating to customer care

## Work Collaboratively on One Powerful Platform

Break down silos between teams and keep communication on-track

“

*A significant percentage of construction and housebuilding companies use Coins construction software, and I think it's quite right that Barratt should be aligned with those companies in using the best technology available.*

David Thomas.

CEO

Barratt Developments

”

*“Ultimately, it is about creating more homes for people. You need sophisticated software and solutions to build, track and monitor that and to give the customers the best experience possible with Keepmoat. That is what Coins delivers with its software solution.”*

Keepmoat Group

# The Powerful Features Behind Access Coins for Home Builders

## Home Builder Tools

*Access Coins gives home builders a unified platform covering the project lifecycle from land appraisal to customer care.*

- Land appraisal tools
- Customer care and lettings management
- Tools for managing QA inspections in the field

## Project Management

*Gain total control over your construction projects. Anticipate challenges, deliver on schedule.*

- Real-time data for complete project visibility
- Centralised tools for document management, cost tracking, and change management
- Customisable daily and board-level reporting

## Supply Chain Management

*Gain complete visibility across suppliers. Ensure timely payments, secure operations, and improve supplier relationships.*

- Comprehensive supplier management
- Transparent risk management and performance tracking
- Streamline your procure-to-pay process

## Financial Management

*Manage budgets, cash flow and transactions while maintaining real-time oversight of your financial operations.*

- Real-time CVR tracking and reporting
- Build fast financial approval workflows
- Powerful forecasting including 'what-if' scenario testing

## Equipment and Plant Management

*Access Coins has the ability to track, charge, cost and maintain all equipment and assets, alongside tracking and managing material inventory.*

- Track plant and equipment
- Rental Desk – Assign equipment, apply rates and charges
- Record and schedule maintenance

## Workforce Management

*Unify HR and payroll functions. Simplify workforce management by automating payroll, benefits and scheduling.*

- Real-time HR and payroll insights
- Employee self-service apps
- Automated compliance with payroll requirements

## Leading Home Builders on Access Coins

“

*We've now got one ERP solution for everything we do as Vistry Group – we can achieve economies of scale, we can support people easier and if we implement an upgrade or enhancement it benefits the whole rather than a small part of our business.*

**Chris Pearce**, Chief Information Officer, **Vistry Group**

”

“

*One source of the truth, that's what a construction ERP is all about. Data goes into Coins once and is accessible across so many different parts of the system by a variety of users.*

**Susan Jackson**, Managing Director, **Campion Homes**

”

“

*Coins really does support every area of our business: commercial teams, surveyors, buyers, financial team, health and safety, HR and Payroll. There isn't a single part of the business that isn't impacted by Coins.*

**Liam Ronan**, Group IT Director, **Persimmon Homes**

”

“

*Mobile applications provide us with cost and time savings in a number of key areas whilst allowing us to keep our customers better informed.*

**Halsbury Homes**
